OFFICIAL CUSTOMER COMPLAINT REPORT

Reporting Company:	MedCore Pharmaceuticals Pvt. Ltd.	Complaint Date:	2026-09-10
Product Name:	Metformin Hydrochloride API	Complaint Type:	Particulate Contamination
Product Strength/Grade:	IP/BP	Batch/Lot Number:	MFH260712A
Manufacturing Date:	2026-07-12	Expiry Date:	2028-07-11

Detailed Observation & Problem Narrative

Visible black particulate matter observed in three sample containers during incoming QC inspection. Batch quarantined pending investigation.

Incoming Inspection & Containment Log

Upon receipt of active pharmaceutical ingredient consignment (Lot: MFH260712A), standard analytical sampling was executed at receiving bay 2. During macroscopic visual inspection in the laminar air flow booth, discrete dark foreign particulates (100–300 µm) were detected suspended within three unopened primary packaging sample jars. Immediate quarantine tag #Q-2026-881 applied to all 25 fiber drums (500 kg total lot weight). Vendor CAPA initiated. Retain samples sealed under chain of custody.
